TERMS OF REFERENCE FOR THE SUPPLY, INSTALLATION AND CONFIGURATION OF NEW SERVERS AT ACHAP HEAD OFFICE

TENDER NO: ACHAP/PRGMS/GLOBAL FUND/VOL 1/2(10)
1.0 PURPOSE
The main objective of the assignment is to replace servers. The servers host critical systems and data, hence the need for routine replacement.

2.0 BACKGROUND
ACHAP relies on its IT infrastructure for its operations and there is a need to upgrade it to the latest technology. Some of the equipment such as printers, one server and wireless access points has been replaced over the years. The current servers have limited the organization to have a test environment where we test new systems, updates and patches before being deployed to the production environment. Data which is being backed up is also not tested to see if it can successfully be restored in case of a disaster. Client computers and servers individually download and install Microsoft updates which negatively affect internet bandwidth in our network. New servers will enable us to setup a test environment and have a server dedicated to downloading and deploying updates to other computers. This sever overhaul will further enable us to host additional applications.

Current IT Environment

The ACHAP IT infrastructure comprises of the following;

i. Dell Power Edge M610 blade servers (5) and EMC AX4-5 SAN Storage
iii. A Kerio firewall
iv. Database Server (Hosts various databases)
v. Backup server. (It runs Veritas Backup Exec 2016). Tapes are used for offsite backups
vi. Application Server (hosts Delta ERP system, DHIS2, Mitel phone system)
vii. Five network printers (HP and Ricoh brands)
viii. Four Wireless Access Points, Routers and Switches
ix. There are currently 70 users in our domain
x. Six desktop computers and 60 laptops

ACHAP is connecting to the Internet via fiber and the Internet Service Provider (ISP) is BBI.

3.0 SCOPE OF PROJECT

ACHAP is seeking the services of a reputable ICT company to supply, install and configure two new servers and VRTX storage unit at Head Office in Gaborone. The company will setup both physical and virtual servers. They will then migrate systems and data from old servers to the new ones.
The specific objectives of this exercise are to;

- To supply, install and configure two new servers and VRTX storage unit, replacing the old and obsolete ones.
- To setup new physical servers and create required virtual machines which will replace the old servers.
- To migrate data and systems from old servers to new servers, excluding the database server which is still new.
- Minimum specifications for the servers are attached.

4.0 KEY DELIVERABLES

The IT company selected to undertake this project would be expected to deliver the following;

- 4.1 Supply servers as per stated specifications
- 4.2 Installation of Hardware and Software
- 4.3 Configurations (linking servers)
- 4.4 Testing of servers
- 4.5 Commission the servers
- 4.6 Submit a detailed report and Administrator’s manual on all tasks undertaken and configurations done on the new servers
- 4.7 Training of IT staff on the newly installed servers
- 4.8 Maintenance and Support on warranty period

5.0 TECHNICAL PROPOSAL

5.1 Based upon the scope of the assignment, the company is expected to submit along with its tender proposal, an implementation schedule, a brief proposal describing their project approach and methodology if awarded the contract. Bidders should demonstrate professional competency in their tender submissions.

5.2 Bidders must be able to demonstrate their capability to produce work of the highest quality through the submission of past work and at least two references from their present clients.

The Technical Proposal should clearly and specifically cover but not necessarily be limited to;
<table>
<thead>
<tr>
<th>Criterion</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Interpretation of the Terms of Reference: Demonstrations of the understanding of the work to be done, a proposed work approach and methodology</td>
<td>25%</td>
</tr>
<tr>
<td>Creativity: A proposed plan on how the new servers will be setup and data migration from old ones. Server make and model should be specified</td>
<td>20%</td>
</tr>
<tr>
<td>Capacity: Copies of CVs for the key staff for the proposal should be attached to the application.</td>
<td>30%</td>
</tr>
<tr>
<td>A detailed work plan, which must include clear timetable/ schedule of the work activities that will be performed</td>
<td>25%</td>
</tr>
</tbody>
</table>

6.0  **FINANCIAL PROPOSAL**

The financial proposal to be presented in a separate envelope, should provide a clear and detailed breakdown of all costs that would be associated with undertaking the entire project, together with the proposed payment schedule.

Only bids that have attained a rating above 70% in the technical evaluation will proceed to the financial evaluation stage.

7.0  **ELIGIBILITY**

Upon the opening of the tenders, the documents will be inspected to ensure that they are in agreement with the guidelines. The following checklist will be applied;

- Signed and completed cover sheet (Applicant Information & Project Information)
- Proposal - Detailed project narrative, Budget summary and a detailed budget narrative (separate program costs from management fee)
- Registration certificate/ Certificate of Incorporation
The duly certified copies of the prescribed, documents as specified above shall be included as an annex to the bid package. **Non-Compliance to the above will render the submission invalid and therefore disqualified.**

**8.0 COPYRIGHT AND INTELLECTUAL PROPERTY RIGHTS**

8.1 In consideration of the fees paid, the company expressly assigns to ACHAP any copyright arising from the works the company produces while executing this contract.

8.2 The company may not use, reproduce or otherwise disseminate or authorize others to use, reproduce or disseminate such works without prior consent from ACHAP.
9.0 REPORTING

The successful bidder will work closely with the Systems & Network Administrator.

10.0 DURATION AND QUALIFICATION

The duration of the project will be for a period of two months, from the date of accepting the offer.

11.0 CONSULTANCY ARRANGEMENTS

It is the responsibility of the appointed company to ensure that work is done diligently and to the highest possible standard.

12.0 PAYMENTS

ACHAP shall pay the consultant an agreed fee.

13.0 SCHEDULE OF PAYMENT

Payments will be done as will be agreed by the company and ACHAP.
